

Let us try Something

ALS

Amyotrophic lateral sclerosis (ALS), also known as motor neuron disease (MND) or Lou Gehrig's disease, is a specific disease that causes the death of neurons controlling voluntary muscles.

The Future

Learn the behaviour of the patient using Machine Learning and implement a system which suggests different ideas to improve the quality of life.

Add a Medicine Tracking System which keeps track of all the medicine doses and reminds the caretaker to give the medicine at the right interval.

Implement a heart pulse graph and a sleeping tracker to UI.

Thank You!
